

Passive DWDM, Plug-In Single LGX Mux & Demux, 4 Channels with 100 GHz spacing, starting Ch36 (1548.52nm), LC-APC connectors, Pass & Monitor

PDW1C-04136-NN36

Features

- Passive
- DWDM
- 100 GHz spacing
- Plug-In Single LGX Combo Mux & Demux
- 4 channels
- Starting with channel 36 (1548.52nm)
- LC/APC, Pass & Monitor

Applications

- Single Mode Fiber Networking
- Single Fiber
- Mux function
- Metro transport
- Regional Distribution
- Inside Plant (ISP) Operation

Description

L-com's PDW1C-04136-NN36 is a DWDM passive filter with 4 channels and 100GHz spacing. L-com's PDW1C-04136-NN36 is a Plug-In Single LGX with Mux and Demux functionality. L-com's PDW1C-04136-NN36 has LC/APC connectors starting at channel 36 (1548.52nm) with Pass & Monitor. An upgrade port is similar to a pass port, with the key difference that it is designed for the addition of remaining DWDM channels in the 1530-1565nm range (C-band). It is used by connecting the common (or line) port from another multiplexer utilizing different wavelengths. The addition of these channels allows for network expansion without interruption of existing connectivity, or additional fiber usage. A monitor port used to analyze or test the power signal coming into or out of a multiplexer, either before it reaches the de-multiplexer (received signal) or as it exits the multiplexer (transmitted signal). L-com's PCW1D-8F327-NN36 is one of thousands of fiber optic products available in-stock and ready to ship today.

Configuration

Filter Type	DWDM
Module Type	Single LGX
Module Function	Mux/DeMux
Number of Channels	4
Starting Channel	1548.52nm
Connector Type	LC
Polish	APC

Filter Specifications

Description	Minimum	Typical	Maximum	Units
Operating Wavelength	1527.22		1564.68	nm
Pass Port Wavelength	1527.22		1564.68	nm
Pass Port Insertion Loss			2	dB
Pass Band	0.125			nm
Pass Band Ripple			0.5	dB
Channel Spacing (GHz)		100		GHz
Channel Insertion Loss			2.5	dB
Return Loss	45			dB
Directivity			50	dB

Passive DWDM, Plug-In Single LGX Mux & Demux, 4 Channels with 100 GHz spacing, starting Ch36 (1548.52nm), LC-APC connectors, Pass & Monitor

PDW1C-04136-NN36

PDL	0.25	dB
PMD	0.2	PS
Channel to Monitor Port IL	25	dB
COM to Monitor Port IL	23	dB
IL Thermal Stability	0.005	dB/degC
Wavelength Thermal Stability	0.002	nm/degC

Size

Length	6.25 in [158.75 mm]
Weight	1 lbs [453.59 g]

Environmental Specifications

Temperature

Operating Range	-5 to +65 deg C
Storage Range	-40 to +85 deg C
Humidity	5~95

Compliance Certifications (see [product page](#) for current document)

Plotted and Other Data

Notes:

Passive DWDM, Plug-In Single LGX Mux & Demux, 4 Channels with 100 GHz spacing, starting Ch36 (1548.52nm), LC-APC connectors, Pass & Monitor from L-com has same day shipment for domestic and International orders. Our portfolio includes coaxial cable assemblies, connectors, adapters and custom products as well as lightning and surge protectors, NEMA rated enclosures, and an RF product line which includes antennas, amplifiers, passive, and active components.

The information contained within this document is accurate to the best of our knowledge and representative of the part described herein. It may be necessary to make modifications to the part and/or the documentation of the part in order to impliment improvements. L-com reserves the right to make such changes as required. Unless otherwise stated, all specifications are nominal. L-com does not make any representation or warranty regarding the suitability of the part described herein for any particular purpose, and L-com does not assume liability arising out of the use of any part or document.
